General Notes

05/25/2022 - 09:11 AM Cory Davis - Today I walked the site with the foreman, superintendent and 2 subcontractors. There was a toolbox talk in the morning attended by all employees on site. The site was in good condition considering that there was a storm two days ago. The site was dry and dust was minimal.

Follow Up Required (1)

6. Is the storage of materials acceptable? LOW SEVERITY

Note: 05/26/2022 - 08:23 AM - Cory Davis Several pieces that were on the ground were put back on the shelves and there are two more to do.

05/26/2022 - 08:24 AM
